

#### COMPANY PRESENTATION

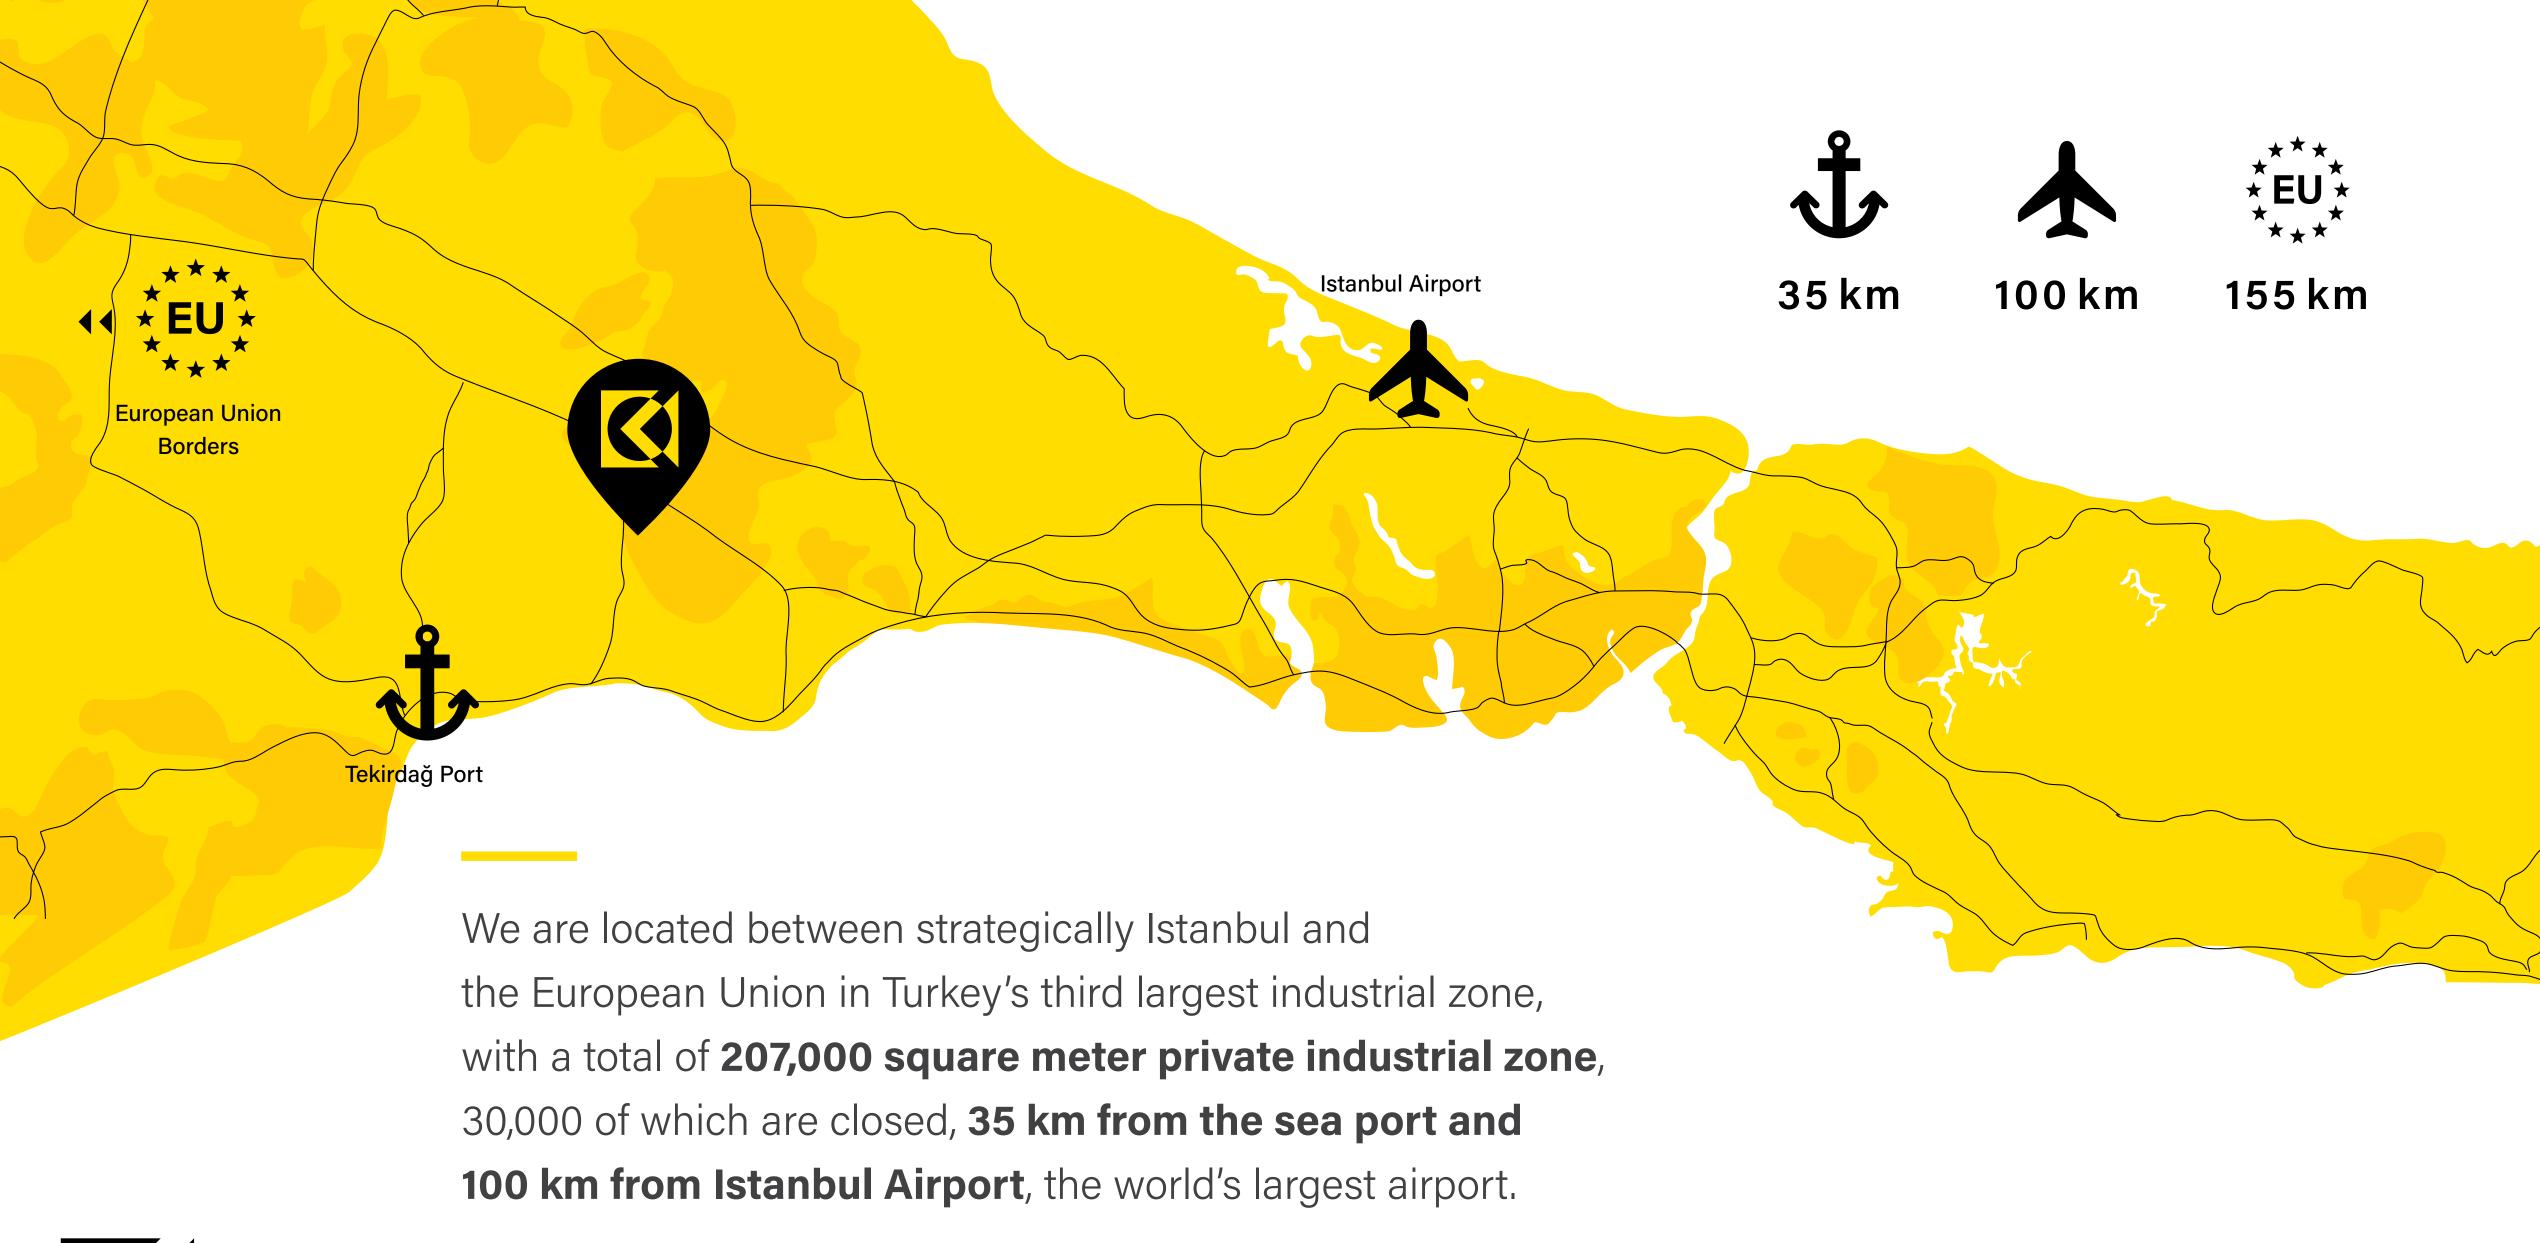

### WE ARE AN IRON LIKE BRAND

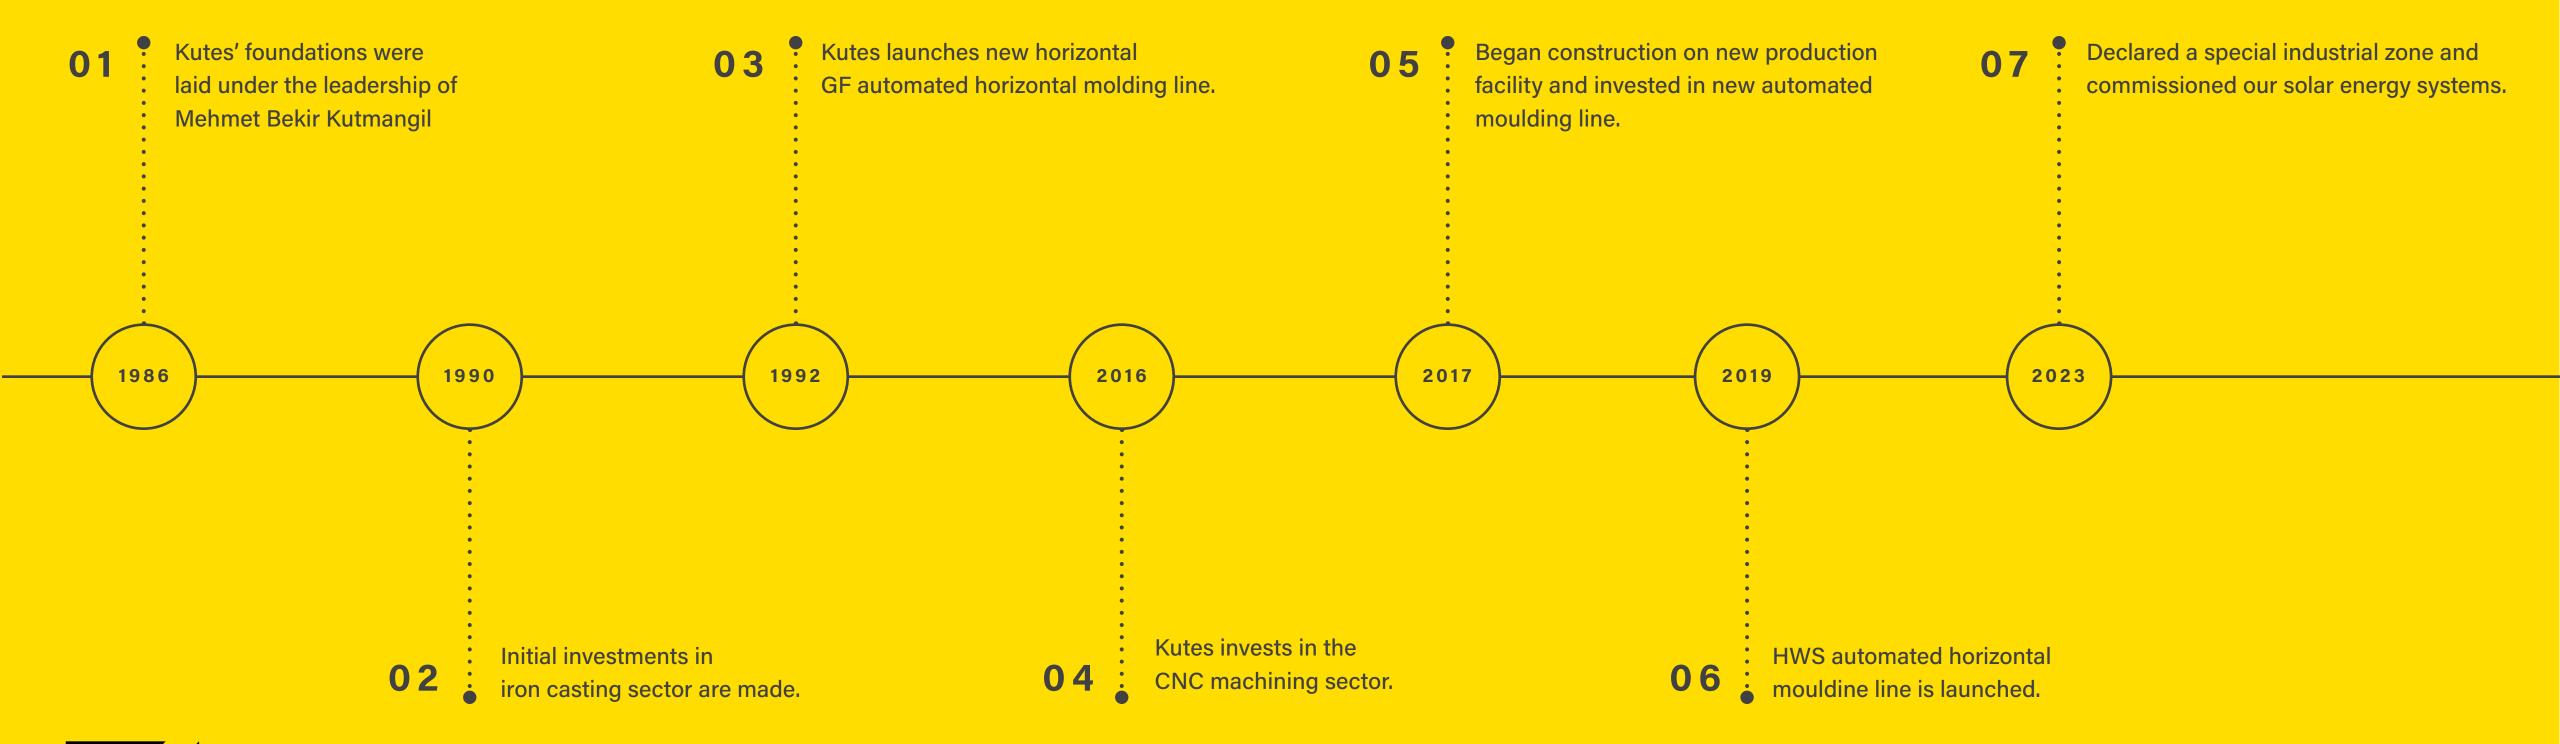

At **Kutes**, our work is much more than iron and our production operations.

In order to fulfill our responsibilities to our customers, to future generations and the world, we are working towards starting the "New Iron Age" at our facilities in Terkidağ Çorlu and leveraging our 30 years history and the talent of our 350 employees.

### Our 30+ year history provides us with the experience necessary to navigate the future and find new paths to help our customers succeed.

30 YEARS

30+ years of iron casting experience and 5 years of CNC machining experience.

9 SECTORS We serve 9 different sectors.

12 CERTIFICATES We have received a total of 12 quality certifications for our quality assurance system.

73 M EUROS We have completed investments of 73 million EUR over the past 6 years.

50.000 TONS

We have 50,000 tons of iron casting capacity and more than 100,000 hours of processing capacity.

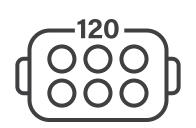

3 CONTINENTS Our products are sold on three continents and more than twelve countries including the USA, China, Italy, France and Germany.

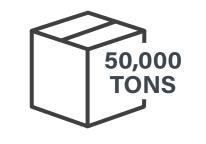

#### IN OUR IRON CASTING FACILITY:

16 TONS OF REMELTING CAPACITY PER HOUR

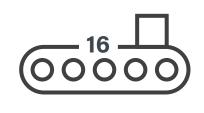

TWO HORIZONTAL MOULDING LINES WITH 120 CAPACITY PER HOUR

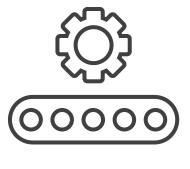

50,000 TONS CAPACITY

CNC MACHINING FACILITY:

16 PROCESSING CENTERS

ASSEMBLY LINE

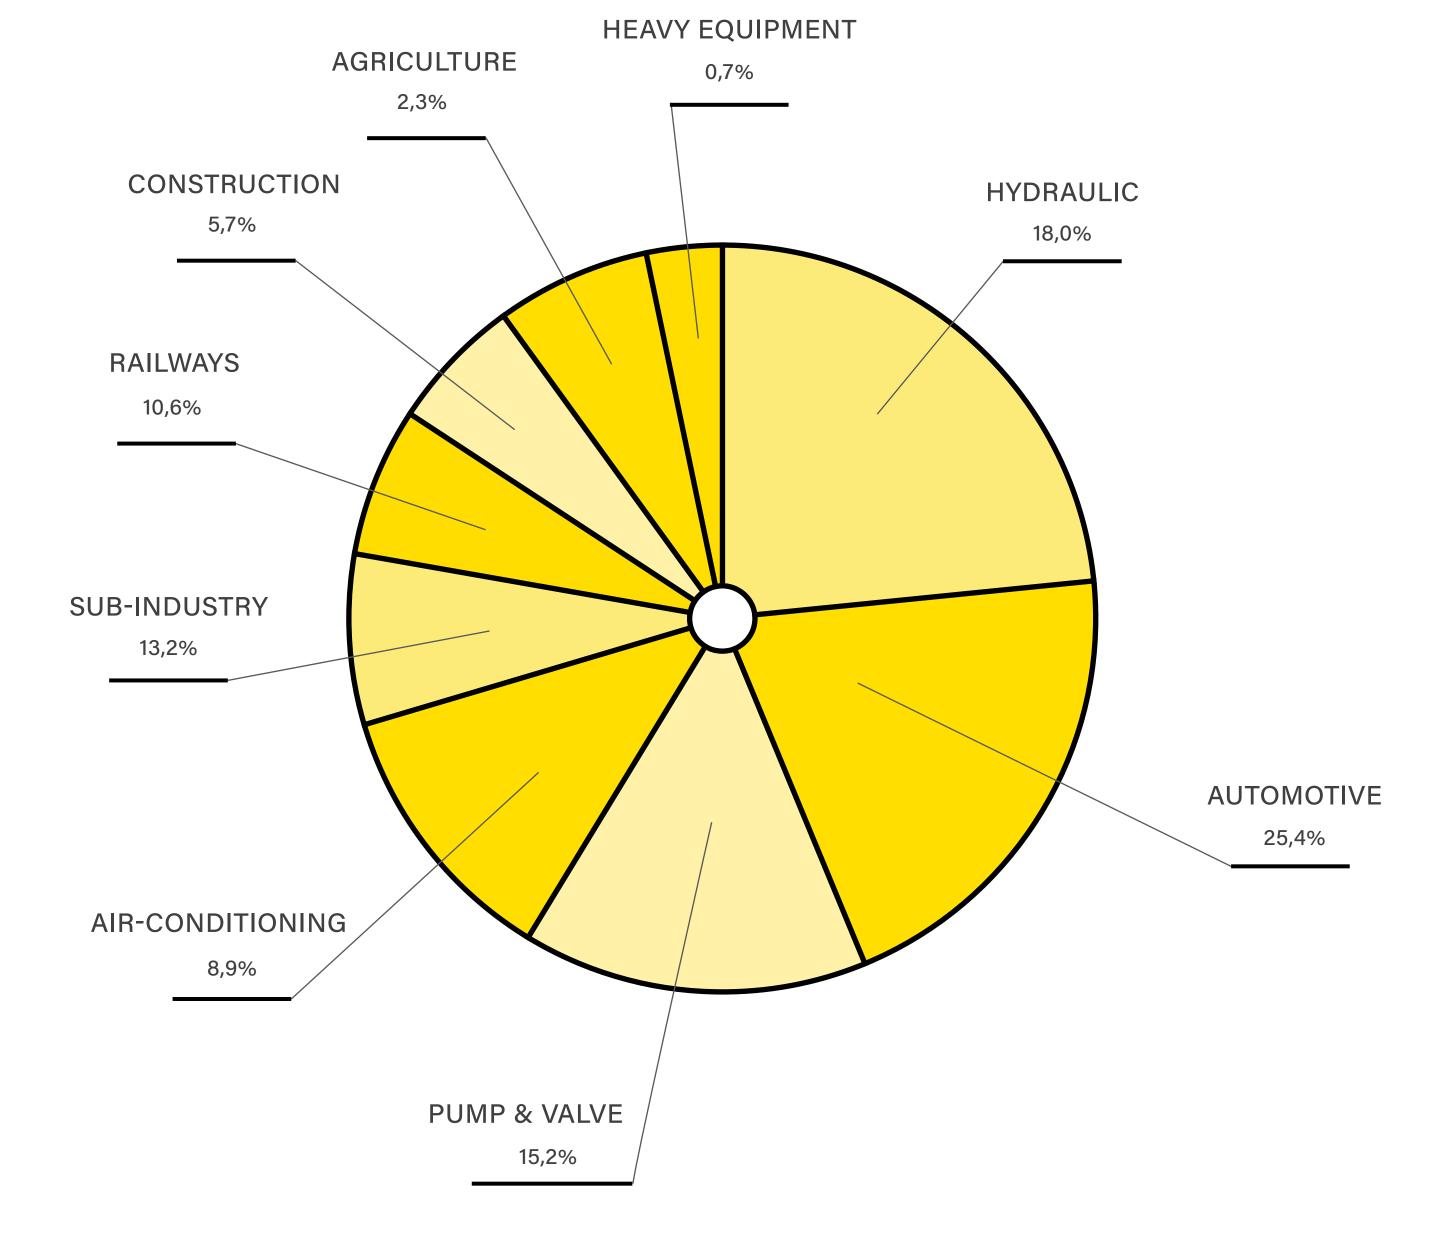

100,000 HOURS OF MANUFACTURING CAPACITY

60% **GREEN ENERGY** 

### Market Distribution 2022

## KUTES LOOKS BEYOND THE PRESENT, POSITIONING FOR FUTURE GROWTH.

For the future, which we have deemed as the New Iron Age, we have planned new projects under our Kutes Operational Excellence Program.

With Industry 4.0, we strive to become the leader in the cast manufacturing sector while also increasing our production flexibility. We aim to concentrate on digitalization and quality management while establishing smart production lines.

With a focus on continuous improvement,
we will use our resources in the most efficient
manner while responsibly minimizing
our impact on the environment.

### TOTAL PRODUCTIVE MAINTENANCE

#### With TPM

(Total Productive Maintenance)
practices we aim to develop and
strengthen the problem solving skills of
our employees while actively ensuring
participation in improvement activities
and maximizing the efficiency of
our production equipment.

#### INDUSTRY 4.0

With continuous innovation being our motto, we will continuously move forward to better ourselves in product range, quality

and supply periods while providing for our stakeholders.

INNOVATION

### OPERATIONAL SUSTAINABILITY

We will increase our agility
by making our processes more
observatable, improvable and
monitorable.

DIGITAL TRANSFORMATION

## PROACTIVE ENVIRONMENTAL COMPLIANCE

We take sustainable steps
regarding energy use and natural
resources, and are always looking
to use technology to improve
efficiency and be a leader
in sustainable innovation.

With our quality policies,
we aim to secure the satisfaction
of our partners while emphasizing
safety and quality in our efforts.

# A GREEN FUTURE WITH GREEN CASTING

Creating sustainable solutions to use energy and natural resources efficiently is not an option but a responsibility for us.

Our biggest goals are to be the pioneer of sustainable innovations in our sector and to change the idea that the casting industry is not eco-friendly.

We are currently working on projects such as using renewable energy sources, developing our facilities in harmony with nature and training sustainability conscious personnel.

We also incorporate sustainability into our future planning/targets.

We aim to be carbon neutral till 2033.

# A GREEN FUTURE WITH GREEN CASTING

We are taking steps to ensure that 90% of the energy used in our casting facilities comes from renewable sources.

We aim to complete ISO 14064 projects and ISO 50001 certification process in 2023, and CDP Reporting in 2024.

So why are we doing all of this?

Because we love what we do and we feel a responsibility to our world and our environment.

You can find our sustainability report here:

## WE CONSIDER OUR CUSTOMERS AS OUR BUSINESS PARTNERS.

At Kutes we have worked with customers from over 12 countries spanning 3 different continents.

Our customers are diverse, ranging from large multinational corporations to new and innovative startups.

Each customer represents an important and valuable reference for us.

If you want to hear about our customers from us: sales@kutes.com.tr
