

Conflict Minerals Policy Statement

KUTES METAL SANAYİ VE TİCARET A.Ş. commits to sourcing raw materials and components from companies that share our corporate values regarding human rights, ethical standards, and environmental responsibility. We expect all our suppliers to adhere to the requirements of our Code of Conduct, which prohibits human rights violations and unethical practices. Furthermore, we require all suppliers to comply with applicable legal standards and regulations. On August 22, 2012, the U.S. Securities and Exchange Commission (SEC) issued the final rule regarding "Conflict Minerals" pursuant to Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act. The Conflict Minerals Rule mandates that publicly traded companies report annually on the presence of conflict minerals (tin, tungsten, tantalum, and gold—collectively referred to as "3TG") originating from the Democratic Republic of the Congo and adjoining countries ("Covered Countries").

KUTES METAL SANAYİ VE TİCARET A.Ş. supports the objective of ending violence, human rights violations, and environmental degradation in the Covered Countries. We commit to complying with all requirements applicable to our Company under the Conflict Minerals Rule. KUTES METAL SANAYİ VE TİCARET A.Ş. will assist its customers in implementing their conflict minerals programs. We strive to collaborate with our customers and supply chain partners in the implementation of conflict minerals compliance programs. KUTES METAL SANAYİ VE TİCARET A.Ş. requires its suppliers to submit complete conflict minerals declarations. We may re-evaluate our willingness to collaborate with suppliers who do not comply with this Policy.
