

KUTES

QUALITY POLICY

- To ensure the satisfaction and comfort of our customers, employees and other stakeholders.
- To prioritize sustainability in investments, make use of the most modern production technologies and thereby maximize production capacity.
- To integrate with the emerging new industrial revolution, Industry 4.0, and become a pioneer of an innovative industrial approach in Türkiye.
- To raise production quality to the highest level, establish this quality as a standard and present it to our customers with a transparent approach.
- To attach importance to training, closely follow innovations in the world and in the sector, and be among the first companies to implement them.
- To set objectives for all processes, implement policies aligned with these objectives, and make continuous improvement effective through an efficient monitoring system.
- To ensure that the quality policy is effective at all levels and in all equipment of Kutes Metal.
- To ensure full and unconditional compliance with the laws of the Republic of Türkiye, international trade agreements, and the ethical rules established at Kutes Metal San. ve Tic. A.Ş.
- To provide employees with a working environment that carries no safety risks, contains no factors harmful to health, and improves their quality of life.
- To ensure the efficient use of energy and natural resources by benefiting from sustainable methods and environmental protection systems, to make conservation a priority, and to reduce environmental burden.
